EXPERIENCE

CLT S.A., Asunción — *Software Developer*

DECEMBER 2021 - PRESENT

CLT S.A. is a partner company of Banco Continental, where I currently have an office. There I develop and maintain the services provide through their credit and debit cards. This is both on the client side (web and desktop application), as well as on the server side (webservice and API's).

Technologies Used: Oracle, C#, ASP .Net, HTML, CSS, TS, Next.JS, Git, Microsoft Azure

Paseo La Galería, Asunción — *Tech. Maintenance*

OCTOBER 2017 - NOVEMBER 2021

General maintenance technician, in charge of predictive, preventive and corrective maintenance in the different areas within the shopping center and towers.

Technologies Used: Language C, MATLAB, Electrical engineer knowledge.

Freelancer, Asunción — *Freelancer*

MAY 2020 - PRESENT

Since 2020 I set out to start my own parallel business independently, where I work developing small projects, either for personal use or for third parties who need applications (web, mobile, desktop) for their small ventures.

Technologies Used: Node JS, Bootstrap, Angular, GitHub, Mongo.

EDUCATION

SNPP(CTFP-PJ), San Lorenzo — *Higher Technician in Industrial Mechatronics*

DECEMBER 2014 - MARCH 2017
